📍 France (open to remote work) 📧 [contact@ebacala.com](mailto:contact@ebacala.com) 🔗 <https://ebacala.com>  LinkedIn

## Summary

Fullstack Developer with 4+ years of experience building web applications using Vue.js, Node.js and Spring Boot, with modern development practices. Coming back to France after a gap year in New-Zealand, I am seeking remote frontend/fullstack opportunities.

## Experiences

### Sabbatical

March 2024 - June 2025

New Caledonia - New-Zealand

- Kept an active eye on development technologies and practices (**Vue.js**, **Node.js**, **Astro**, **CI/CD**)

#### Worked as a Game Master et IT Support in an Escape Game (Te Anau, New-Zealand)

- Managed customer experience and bookings
- Maintained facility operations
- Maintained IT infrastructure and troubleshoot technical issues

#### Worked as a housekeeper in a holiday park (Te Anau, New-Zealand)

- Cleaned customers' rooms at a quick pace
- Addressed customers' needs
- Worked as part of a team

### Codes Rousseau

June 2023 - March 2024

Frontend Developer

Les Sables d'Olonne, France

- Developed and maintained modules for driving schools-facing core system (**Vue.js 2**, **Vue.js 3**)
- Developed a hybrid mobile app dedicated to the driving exam in New-Caledonia (**Vue.js 3**, **Capacitor**)

### Atos

August 2022 - May 2023

Fullstack Developer

Nantes, France

Developed an internal financial audit tool for the French national healthcare system (**Vue.js 2**, **Vuetify 2**, **Spring Boot**, **PostgreSQL**)

### Atos

August 2019 - September 2022

Software Developer in a work-school program

Nantes, France

- Developed, troubleshoot and fixed existing projects related to the French national healthcare internal system (**Spring Batch**)
- Developed internal web frontends (**Vue.js 2**, **Vuetify 2**)
- Developed internal API backends (**Spring Boot**, **PostgreSQL**)
- Implemented an automated end-to-end tests solution (**Katalon Studio**) resulting in a 500% faster testing time for each release

### LiveE

April 2019 - June 2019

Web developer internship

Nantes, France

- Developed web services and apps (**Node.js (Hapi)**, **React**)
- Developed the administration panel of a URL shortener tool (**Node.js (Hapi)**, **Redis**, **React**)
