Evann BACALA

Fullstack Engineer (open to remote work)

Rennes, France contact@ebacala.com +33681637256 https://ebacala.com LinkedIn GitHub

SUMMARY

Fullstack Engineer with 4 years of experience (incl. work-study) building web applications using Vue.js, React, Node.js and Java, following modern development practices.

EXPERIENCE

Liksi (outsourced to IDnow) Rennes, France

Fullstack Engineer January 2026 – Present

Stack: React, TypeScript, GitLab CI

- Rebuilt the frontend of an identity-verification tool handling ~15k video calls per month, resulting in increased call completion rate and reducing call errors
- Set up an automated Docker images pipeline scanning for CVEs

Travel & Working Holiday New Caledonia and New Zealand

Game Master, IT Support, housekeeping May 2024 – June 2025

- Game Master & IT Support at Fiordland Escapes, Te Anau (Jan-May 2025): managed customer experience from booking to game supervision; maintained IT and facilities
- Housekeeping at Top 10 Holiday Park (in parallel)

Codes Rousseau Les Sables d'Olonne, France

Frontend Developer June 2023 – March 2024

Stack: Vue.js 2 & 3, Capacitor

- Shipped a hybrid mobile app for the New Caledonia driving exam, deployed on iOS & Android
- Migrated frontend modules from Vue 2 to Vue 3 in a legacy codebase while keeping production stable

Atos Nantes, France

Fullstack Engineer August 2022 – May 2023

Stack: Vue.js 2 & Vuetify 2, Java & Spring Boot, PostgreSQL

- Developed an internal financial audit tool for the French national healthcare system

Atos Nantes, France

Fullstack Developer in a work-study program August 2019 – August 2022

Stack: Vue.js 2 & Vuetify 2, Java & Spring Boot & Spring Batch, PostgreSQL, Katalon Studio

- Developed internal frontend modules, backend APIs and batch jobs for the French national healthcare internal system
- Automated end-to-end testing, reducing test campaigns from several days of manual work to a few hours

LiveE Nantes, France

Web Developer Intern April 2019 – June 2019

Stack: Node.js & Hapi, React, Redis

- Developed web services and apps (URL shortener admin panel)
